Lynn Painter's Tips for Gorgeous Hair

- **Use the right products for your hair type.** Painter recommends using products that are designed for your specific hair type and texture. If you have fine hair, use volumizing products. If you have thick hair, use products that will help to control frizz.
- **Don't over-wash your hair.** Painter recommends washing your hair no more than twice a week. Over-washing can strip your hair of its natural oils, which can lead to dryness and damage.
- **Use heat protectant spray.** Painter recommends using a heat protectant spray whenever you use heat styling tools. This will help to protect your hair from damage.

- **Get regular trims.** Painter recommends getting regular trims to remove split ends. Split ends can make your hair look dry and unkempt.
- **Eat a healthy diet.** Painter recommends eating a healthy diet that is rich in fruits, vegetables, and whole grains. This will help to nourish your hair from the inside out.
